

PRESS RELEASE - THE GALLERY BY PRADO

THE GALLERY BY PRADO

prado

For Milan Design Week 2026, prado takes over one of the city's most storied addresses and turns it into a stainless steel laboratory. At Galleria Bottegantica, prado constructs a serene white space, built to reveal the creation of light + ventilation mini, prado's newest innovation.

prado is known for its radically simple architectural lighting and invisible home technology. Founded in 2020, prado removes the visual noise from living spaces, leaving only what matters. No unnecessary elements, just the essentials of a refined interior, working in seamless harmony.

Vervloet and Atelier Luxus join prado at Milan Design Week, together representing 150 years of Belgian excellence. Since 1905, Vervloet has been mastering the precious craft of architectural hardware, crafting luxury brass and bronze door handles and fittings by hand, adorning palaces and grand hotels worldwide.

Atelier Luxus has been crafting luxury switches, sockets and electrical hardware for over 25 years, combining noble materials, artisanal craftsmanship and the latest technology.

Three maisons. One uncompromising standard.

ABOUT PRADO

prado

prado offers advanced solutions for home technology such as light, ventilation & motion detectors, quietly disappearing into the architecture to bring calm to the spaces we live in. Founded in 2020, prado removes the visual noise from living spaces, leaving only what matters. No unnecessary elements, just the essentials of a refined interior, working in seamless harmony. Manufactured to the highest luxury standards, prado is designed for those who believe that true comfort lies in what is absent as much as what is present. prado works with prestigious projects across Europe, the Middle East, and the United States.

ABOUT ROND

rond

ROND, acquired by prado in 2022, is the Belgian brand that pioneered minimalist wall sockets and switches, allowing walls to remain as pure as the light itself. The designs are clean and understated, created to blend seamlessly into the architecture so that more important elements can shine. ROND represents a new standard of refinement in everyday interactions, crafted from high-quality materials and designed to harmonize with the most sophisticated interiors. While prado brings calm to ceilings through invisible technology, ROND does the same for walls and floors. prado's vision of creating intelligent, aesthetically refined solutions aligns perfectly with ROND's philosophy.
